Subject: Reference for Gibraltar Construction Company, Inc.

To Whom it May Concern,

It gives me great pleasure to provide a letter of recommendation For Gibraltar Construction Company, Inc. in reference to the work they have performed on our recent modernization project. We retained their services as general contractor for the modernization of 4 senior living facilities. 0ur first Build started in April of 2024 and we are currently working on the last build, slated to complete in May of 2027.

From the start of this project, Gibraltar Construction Company Inc. has worked diligently with true professionalism and integrity. The coordination of the project management team and the project leads have been great. They have ensured that materials, its installation and overall operations were handled flawlessly and efficiently without disruption to our residents or daily staff operations.

The scope of work performed for us included plumbing upgrades, installing new shutoff valves, and replacing failing cast iron waste lines. Full kitchen and bathroom remodels, installing new cabinets, counter tops, sinks, showers and fixtures. They also performed electrical upgrades for lighting, receptacles and stiches for the entire building. The workmanship we received was impeccable as they followed all safety regulations and building codes. With the many challenges that came with the projects, the team was able to adapt, maintain project timeline and stay within our approved budget even with unexpected problems that would arise.

We have been very satisfied with the completed work thus far and would not hesitate to partner with then on other projects in the future. I recommend them to any future prospective clients with no hesitation.

Should you have any questions or would like to further discuss our experience with Gibraltar Construction Company, Inc. in more detail, please feel free to contact me.

Regards,

Steven Atkins
Assistant Vice President of Capital Projects
